

## WA's Forklift Rental Specialists

### About us

At AF&E, we stock a broad range of material handling equipment. Our depth of experience means there isn't much we don't know about forklifts and the industry in which we operate.

Furthermore, the owners of the business work in the business, ensuring that our values and culture continue to flourish and be reflected in our service delivery.

We are a brand-independent business providing solutions to a vast array of companies.

Being independent means that we are not formally aligned with any one brand. This, coupled with our values, enables us to ensure we objectively achieve the best solution for our clients each and every time.

We pride ourselves on safety and efficiency in everything we do whilst providing our customers with a fast, no fuss service.

We treat all our customer requests and enquiries with urgency, professionalism and friendliness, with a commitment to total satisfaction.

### AF&E Values:

Absolute commitment to customer service

Quality and safety

Honesty, integrity and respect

Punctuality and rapid responsiveness

Empathy and understanding

Value and efficiency

We are listeners

### Proudly WA owned

## Forklift Range

### Rough Terrain Forklift

Excellent for soft, loose or uneven terrain. Minesite compliant.

### Medium LPG or Diesel Forklift: 2.5 to 7 Tonne

The medium range of forklifts ranging from 2.5T-7T are the workhorses of everyday business. LPG, electric or diesel these are the backbone of your company, and we only select the most reliable and efficient forklifts to keep your business running day and night.

### Compact LPG or Diesel Forklift: 1 to 2.5 Tonne

A sophisticated, all-round machine suited for countless indoor and outdoor applications.

### Electric Ride-On Forklift: 3 Wheel - 1 to 3.5 Tonne

The 3 wheel electric forklift is useful for both indoor and outdoor use. It is quiet and efficient to operate while having a very tight turning circle. Electrics are also ideal for low/no emission environments.

### Electric Ride-On Forklift: 4 Wheel - 2 to 5 Tonne

The 4 wheel electric forklift is useful for both indoor and outdoor use. It is both quiet and efficient to operate. Electrics are also ideal for low/no emission environments.

### Large Diesel Forklift: 8 to 32 Tonne

These forklifts are the heavy movers. Ranging from 8-32T, these forklifts are ideal for the big jobs. All have the comfort of enclosed cabs and air conditioning, and are ergonomically designed to ensure minimal driver fatigue.

### Electric Pallet Jack

Very useful for basic warehousing tasks up to 2.5T.

### Ride-On Electric Pallet Jack

Very useful for basic warehousing tasks up to 2.5T, with the added feature of an operator platform.

### Ride-On Electric Walkie-Stacker

An easy to operate choice, suitable for warehousing tasks that require a greater reach height.

### Electric Reach Truck

A sophisticated warehouse machine suited for narrow aisles and high reach requirements.

We rent a full range of attachments designed for forklift applications.

Our forklift attachments include:

- Fork tynes
- Fork extension slippers
- Forklift jibs and lifting equipment
- Fork spreader frames
- Forklift hay bale frames and personnel cages
- Container ramps
